

## **JUNE 1 TO JUNE 9, 2016 GENCYBER: SECURITY CAMP FOR K-12 TEACHERS**

This is an outreach event sponsored by National Security Agency (NSA) and National Science Foundation (NSF). It will be hosted by Computer Science Department at Missouri S&T. The goal of this camp is to *enhance cybersecurity awareness and assist professional development of K-12 teachers* through:

- **Learning upfront cybersecurity technology.**
- **Designing curriculums to train our next generation cybersecurity workforce starting as early as kindergarten.**

### **THIS CAMP FEATURES**

- **Cybersecurity lectures by the co-director of cybersecurity laboratory at Missouri S&T**
- **Hands-on lab experiment**
- **Programming robots and board games to have fun learning experience**
- **Introduction to cybersecurity career by government agents**
- **Curriculum design ideas provided by past camp participants**
- **Curriculum design competition**
- **Award ceremony and closing banquet**

### **REGISTER TODAY**

Each teacher will receive **\$1200** stipend and a 40-hour professional development certificate for completing the training.
