Election Security 2020

Dr. George Markowsky
Dept. of Computer Science
Missouri S & T

ABSTRACT:
This is the first of a series of talks on Election Security for the 2020 election. We will give an overview of the Voting Village at the recent Def Con 2019 conference held in Las Vegas. Def Con is the world’s largest hacker conference and has shown special interest in the security of elections. Our session will also feature excerpts from some of the talks presented at Def Con.

BIOGRAPHY:
Dr. George Markowsky is currently Professor of Computer Science at Missouri S&T. He holds an M.A. and Ph.D. in Mathematics from Harvard University and a B. A. in Mathematics from Columbia University. He was Chair and Professor of Computer Science at the University of Maine, a Visiting Scholar at the Rochester Institute of Technology, a Visiting Professor at the Lally School of Management and Technology at RPI, and Manager of Special Projects in the Computer Science Department at the IBM Watson Research Center in NY.
